REQUEST FOR CORRECTED FILING RECEIPT

Commissioner for Patents  
P. O. Box 1450  
Alexandria, Virginia 22313-1450

CERTIFICATE OF MAILING 37 C.F.R. 1.8	
I hereby certify that this correspondence is being deposited with the U.S. Postal Service with sufficient postage as First Class Mail in an envelope addressed to: Commissioner for Patents, P. O. Box 1450, Alexandria, Virginia 22313-1450, on the date below:	
<u>8/15/06</u> Date	<u>Claudia A. Standiford</u> Claudia A. Standiford

Sir:

A corrected filing receipt is hereby requested in view of errors that appear in the original.

Specifically, the original filing receipt (mailed April 21, 2006) erroneously omits the priority claim, as filed by Applicants on June 2, 2005 (a copy of which is attached hereto as Exhibit 1), stating that the application claims the benefit of priority to U.S. Provisional Application No. 60/431,153, filed December 5, 2002. Attached hereto as Exhibit 2 is a copy of the first page of the PCT Publication No. WO 2004/053062 A2, which indicates this priority data. Therefore, under the heading "Domestic Priority data as claimed by applicant," after correctly stating that the application is a § 371 U.S. national phase application of International

Application No. PCT/US2003/0038268 filed December 3, 2003, the corrected filing receipt should also read: "which claims benefit of 60/431,153 12/2/2002."

Additionally, the original filing receipt incorrectly indicates in the title of the application "asr-368" (i.e., in lower case letters); this should correctly be in uppercase letters. Therefore, the corrected title should read: "Bentgrass event ASR-368 and compositions and methods for detection thereof."

Please issue a corrected filing receipt to indicate these corrections. For the convenience of the Patent and Trademark Office, a copy of the original filing receipt with the changes noted thereon is attached hereto as Exhibit 3. Please date-stamp and return the enclosed postcard evidencing receipt of these materials.

Because these needed corrections are not due to any error by Applicants, no fees are believed to be due in connection with the filing of this document. However, should any fee be required for any reason in connection with this paper, the Commissioner is authorized to deduct said fee from Howrey LLP Deposit Account 08-3038/11899.0236.PCUS00.

## PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

### LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

#### **GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The

date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

#### **NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**PRELIMINARY AMENDMENT AND PRIORITY CLAIM**

Sir:

Applicants respectfully request that the following amendments be entered into the specification prior to examination of this application on the merits.

**IN THE SPECIFICATION:**

At page 1, lines 3, after the Title please add a new first paragraph:

-- This application is a §371 U.S. national phase application of International Application No. PCT/US2003/0038268 filed December 3, 2003, and claims the benefit of priority to U.S. Provisional Application No. 60/431,153, filed December 5, 2002 --

Please replace the original sequence listing with the presently submitted substitute sequence listing of 5 pages comprising 14 sequences, which has been updated in PatentIn version 3.3.

## REMARKS

The specification has been amended to recite a priority claim. A paper copy of the Sequence Listing, as well as a computer diskette, and statements as required under 37 C.F.R. §1.821(f) are provided herewith.

Should any additional fees be required for any reason relating to the enclosed materials, the Commissioner is authorized to deduct said fees from Deposit Account No. 01-2508/11899.0236.PCUS00.
